Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

See attached table and chart.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

Community concerns would normally come to us either directly from the public or department and agencies such as the Town Board of Health, the Town Fire Department, etc.

We are a founding member of NBEN (Northsat Business Environmental Network).

We are a member of the Merrimack Valley Local Emergency Planning Committee (LEPC).

2 How do you inform community members of important matters that affect them?

We are located in a remote industrial park. Spills, leaks, emissions, or discharges of any of our chemicals would have no immediate impacts on community members. If, however, a major incident were to arise we would follow our Crisis Management Program. A representative from Human Resources would respond to questions from the community. Corporate Public Relations is another source of information for the community. We are also a member of the Merrimack Valley LEPC.

3 How will you make the Performance Track Annual Performance Report available to the public?

☐ Newspaper

☐ Open Houses

☒ Other

It will be made available upon request.
